

OnLine Seminars On OpEN SCIENCE 2022/23 Edition

ITRN The Italian Reproducibility Network

A remote educational course focused on Master and PhD Students covering open science topics and practices.

Seminars last 30/40 minutes plus 10/20 minutes for questions.

The online seminars registration link will be available later on, usually a few days before each seminar

November 24, 3 PM

Valentina Pasquale, Italian Institute of Technology, IT
The transformative Potential of Open Science

December 14, 5 PM

Nicholas Coles, Stanford University, USA; Director of the Psychological Science Accelerator
Multi-lab and Multi-site Projects; the Psychological Science Accelerator

January 11, 3 PM (CET)

Rima-Maria Rahal, Max Planck Institute for Research on Collective Goods,
DE Replication Studies

February 8, 3 PM (CET)

Eric-Jan Wagenmakers, University of Amsterdam, NL
Best Practices and Transparency in Statistics

March 1, 3 PM (CET)

Enrico Glerean, Aalto University, School of Science, FI
Open issues in data sharing

April 5, 3 PM (CET)

Iratxe Puebla, Director of Strategic Initiatives & Community, ASAPbio
The Revision Process and Preprints

May 4, 9 AM (CET)

Alex Holcombe, University of Sydney
Contributorship: Changing Practices to Better Credit Researchers

June 7, 3 PM (CET)

Ioana Cristea, University of Padova, IT
Redesigning Incentives: Open Science Practices at the Cornerstone of Academic Evaluation
